## Resume

I work with software development since May 2022 and have a strong interest in working with front-end. I am passionate about technology and design and always seek to improve my skills. I believe that the combination of technical knowledge and design skills is fundamental to build high-quality applications.

My skills include:

- UI/UX;
- GIT - (GitHub, GitLab);
- HTML;
- CSS - (Flex, grid, Frameworks as Bootstrap, SASS);
- JavaScript - (React.js, JQuery);
- Java - (Spring Boot);

I am excited to apply these skills to a successful career in front-end. Connect with me on LinkedIn to exchange ideas about technology and programming!

## Experience

Lenovo

Research & Development - Internship

May of 2022 - Present (10 months)

Indaiatuba, São Paulo, Brasil

- \* Designed, developed, and maintained web applications using HTML, CSS, and JavaScript;
- \* Collaborated with other developers to identify and implement solutions to improve the user experience and performance of web applications;
- \* Conducted testing and debugging of web applications to ensure quality and functionality;
- \* Assisted in the development of responsive web applications using frameworks such as Bootstrap and jQuery;

- \* Participated in Agile development processes, including daily stand-up meetings, sprint planning, and retrospectives;
- \* Kept up-to-date with the latest web development trends and technologies, and contributed to the team's knowledge-sharing and continuous learning culture;

During my time as a Web Development Intern at Lenovo, I gained hands-on experience in web development and worked with a talented team of developers who helped me improve my skills and knowledge. I am grateful for this experience and excited to continue growing as a web developer.

## Four Solution Services

### Technical Assistant

june of 2021 - may of 2022 (1 year)

Indaiatuba, São Paulo, Brasil

- \* Performed manual testing on computers and laptops sent to the repair center, ensuring that they meet quality standards and specifications
- \* Assisted in troubleshooting and diagnosing hardware and software issues, and provided recommendations for repair or replacement;
- \* Developed and maintained testing procedures and checklists for various computer models and software configurations;
- \* Collaborated with the engineering team to identify and report product defects and provide feedback on product performance;
- \* Participated in the development of internal software tools and applications to streamline testing processes and improve efficiency;
- \* Conducted data analysis and generated reports to support the development and testing process
- \* Contributed to team knowledge-sharing and continuous learning culture by keeping up-to-date with the latest technologies and industry trends;

As a Technical Assistant, I gained valuable experience in testing and troubleshooting computer hardware and software. I was also able to develop my skills in software development and contribute to the development of internal tools and applications. I am grateful for this experience and look forward to continue growing in the field of technology.
